Waleed Ahmed Shahid

Social Media Manager

25 April, 2024

Dear Recruiting Team:

I am writing to express my enthusiastic interest in the internship opportunity at Finanz Informatik. With a bachelor's degree in computer science and currently pursuing a Master's in Artificial Intelligence and Machine Learning, I bring a wealth of practical experience and a strong foundation in various facets of computer science, including web development, database management, machine learning and backend engineering.

As a Software Engineer Intern at Bitnine Global in South Korea, I delved into the realm of database management and backend development. My primary focus was on implementing Apache Age, a graph-based database initially built on pgsql, onto the MariaDB platform. This involved in-depth knowledge of both database systems and their nuances, further solidifying my expertise in this domain. Furthermore, I actively contributed to the enhancement of Apache Age by implementing various backend functions, such as the factorial function, and meticulously documented the drivers and usage of the software on its main open-source repository. These experiences instilled in me a profound appreciation for rigorous development practices, effective documentation, and collaborative teamwork.

I have worked as a social media lead in social media marketing agency named Skylift marketing agency where I have worked for the growth of different client pages and I have organized and implemented those strategies for different clients which has given very beneficial results.

I would welcome the opportunity to further discuss how my background, experiences, and aspirations align with the goals and requirements of the position. Please feel free to contact me at your earliest convenience by phone at (+49) 1631383843 or via email at waleedshahid524@gmail.com to schedule an interview or if you have any questions.

Thank you for considering my application. I look forward to the opportunity to discuss my candidacy with you.

Warm regards,

Waleed Ahmed Shahid
